**SAVAGE BASS**

# THE SAVAGE SERIES SPECIFICATIONS

Slick and sassy, Daion's Savage Series are designed for any style of music. The solid maple neck is comfortable and fast with easy access to the 22nd fret.

On the guitars, the pickups are the renowned humbuckers. On the bass, the pickups are split single-coil and 8-pole single coil. Optimum sustain is obtained by through-the-body stringing. The guitars have mini-toggle switches that allow series or parallel coil settings for a vast variety of sounds.

All instruments are available in white, black, red, yellow and blue.

## **BARBARIAN**
